RE: Increase on Surcharges for Wireless Phones

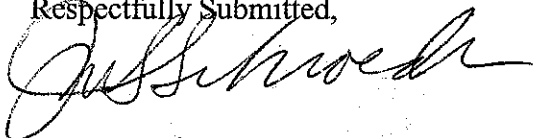

Ladies and Gentlemen:

Revenues from wire line 911 surcharge are decreasing due to the replacement of land lines with cell phones as a primary sources of phone service. As a result, the counties are receiving less revenue from 911 surcharges. This revenue is critical to the safe and successful operation of the 911 centers.

It would help if surcharges on wireless phones would be increased to offset the land line loses. Therefore, please consider this letter as support from Frontier County, Nebraska of an increase in the surcharges on wireless phones to offset the general costs to implement and administer enhanced wireless 911.

We thank you for considering our concerns.

Respectfully Submitted,

JON S. SCHRODER
